

28050 Kremer Color Paste - Yellow, PY 1

Delivery form: liquid
Chemical structure: Aqueous suspension of pigments
Color Index: Pigment Yellow 1, C.I. 11680

Composition: aqueous, solvent free pigment preparation

Pigment content: ca. 50 %
Tensid type: non ionic / slightly anionic

Color hue tolerance (CIELAB): DE max. 1.0
Tinting tolerance: 95 - 105 %

Physical Data

pH-Value: 6 – 8 (DIN ISO 787-9)
Density (23°C): 1.10 – 1.40 g/cm³
Viscosity (23°C): max. 1000 mPa.s (D = 70 s⁻¹) DIN 53019

Main application field: Paint and varnish, sand paper, office supplies

Further application fields: Phenol resin coloring, melamine resin coloring, technical laminated paper, synthetic leather (coagulation), paper pulp coloring, paper coating, wallpaper colors, tissue printing inks, non-woven, wood preservatives, wood stains, latex, seed, fertilizers, shoe-cleaning articles, wash and cleaning agents

Storage: 24 months

Note: Before use, stir well! Close container firmly after use.
