94050  Nigrosin, water soluble

Chemical composition:  Sulfonated phenazine – Dye
Color:  neutral black
Color Index:  Acid Black 2, tinted with acid colorants
            C.I. 50420

Coloring strength tolerance:  95.0 – 105.0 %

pH-Value:  9.0 – 11.0 (10 % in water)
(ISO 787, Part 9)

Salt content:  approx. 15 %
Dusting value:  max. 0.5 %

Lightfastness:
(DIN 54004)  4 -5 (on maple inlay using a concentration of 30 g dye/ liter water)

Solubility:  min. 50 g/l water (25°C)

Main Fields of Application:
-  Wood staining
-  Articles for office supply
-  Cleaning products
